# City Council Memorandum

**TO: HONORABLE MAYOR AND CITY COUNCIL      DATE: DECEMBER 14, 2021**  
**FROM: FINANCE DEPARTMENT      WARDS: ALL**  
**SUBJECT: FISCAL YEAR 2020/21 FOURTH QUARTER REPORT AND CARRYOVER OF UNEXPENDED FUNDS**

## **ISSUE:**

Receive and provide input on the Fiscal Year 2020/21 Fourth Quarter Financial Report; approve citywide carryovers; and provide direction on the use of surplus General Fund reserves.

## **RECOMMENDATIONS:**

That the City Council:

1. Receive and provide input on the Fiscal Year 2020/21 Fourth Quarter Financial Report;
2. With at least five affirmative votes, approve a carryover of unexpended funds of approximately \$2.3 million in the General Fund and \$38.7 million in other City funds into fiscal year 2021/22; and
3. Approve staff's recommendation on use of the \$47 million in surplus reserves in the General Fund contingent upon a successful certification of the General Fund Transfer election results.

## **BACKGROUND:**

On June 16, 2020, the City Council adopted Resolution No. 23592 approving the Fiscal Year (FY) 2020/21 (Emergency) Annual Budget. The adopted budget was the product of a truncated budget process prompted by the COVID-19 pandemic and Orders that limited the City's ability to receive the usual level of engagement in the budget process. Further, the impacts of the COVID-19 pandemic on City finances were largely unknown at the time of budget adoption due to the ongoing shut-down Order and uncertainty at all levels of the economy. As a part of the adoption of the emergency budget, staff committed to the City Council and the public that interim reports and recommendations to the adopted budget would be made as needed. Throughout the fiscal year, the City's Chief Financial Officer has provided updates to the City Council via a standing item on the agenda.

On October 27, 2020, the City Council received an interim financial update that reported on the preliminary results of fiscal year ending June 30, 2020, as well as economic developments observed since the adoption of the FY 2020/21 emergency budget.

On April 13, 2021, the City Council received the FY 2020/21 Second Quarter Financial Update.

On June 15, 2021, the City Council received the FY 2020/21 Third Quarter Financial Update.

## **DISCUSSION:**

Following the close of each fiscal year, the City's independent auditor performs an audit of the City's financial statements. The FY 2020/21 Fourth Quarter Financial Report precedes the audit report and therefore presents **unaudited financial projections**. The audit report is expected to be completed in December, followed by presentations to the Financial Performance and Budget Committee and City Council.

Refer to Attachment 1 for a comprehensive Financial Report of the City's General Fund and Measure Z.

### **General Fund**

The General Fund's unaudited actuals present a net gain of \$28.6 million after carryovers, primarily due to sales tax revenues performing exceptionally well despite the pandemic. The emergency budget included a 10% contingency revenue reduction for the potential effects of the pandemic on City revenues, but sales tax exceeded the contingency estimate by \$18.7 million. CARES Act funding for public safety costs of \$5.8 million also added to strong revenue performance.

General Fund revenues were 9.8% (\$26.6 million) higher than the total revenue estimate in the adopted budget, which included a 10% (\$28.1 million) contingency revenue reduction.

Encumbrances and project/grant carryovers totaling \$5.0 million will be carried forward as allowed per the Riverside Municipal Code. An additional \$2.3 million in the carryover of restricted and discretionary funds is recommended for Council approval (refer to Attachment 1, Appendix A). If Council approves additional recommended carryovers of \$2.3 million, expenditures will be 2.2% (\$5.9 million) less than budgeted.

As a result of positive financial performance, the following two balancing measures adopted in the FY 2020/21 emergency budget are not required, and the funding remained intact in the respective funds:

1. Allocating \$6 million from the unexpended Measure Z Spending Contingency line item to the General Fund.
2. Transferring \$6.2 million of the Section 115 Trust's \$9.4 million value (at the time of budget adoption) to the General Fund to help pay for the FY 2020/21 UAL payment.

The General Fund is expected to end the fiscal year with a \$47.1 million in surplus reserves, which includes the \$15.6 million prior year surplus. The General Fund Reserve policy adopted by City Council on September 6, 2016, states: "If at any time the Surplus Reserves exceed 10% of the General Fund expenditure budget during a fiscal year (for a total of a 25% General Fund Reserve

balance), staff must present a plan to the City Council with options for appropriate uses for the excess funds to bring the General Fund Reserve balance to the 25% level or below.” Staff recommends the following use of surplus reserves, which will bring the General Fund Reserve balance to the 20% level:

**RECOMMENDED USE OF SURPLUS RESERVES**

(in millions)

<b>Projected Surplus Reserves</b>	<b>\$47.08</b>
<b>Proposed Use of Surplus Reserves</b>	
Electric GFT Settlement	\$24.00
General Liability Fund Pre-Payment	2.50
Section 115 Trust	10.00
Capital Replacement Fund	10.58
<b>Total</b>	<b>\$47.08</b>
<b>Remaining Surplus Reserves</b>	<b>\$-</b>

The City is currently responding to a legal challenge to the certification of the results of the Measure C ballot measure that was approved by voters in November 2021. For the moment, we should hold onto all surplus funds in the event the court does not uphold the November 2<sup>nd</sup> election. Should an injunction on the certification of Measure C results be upheld, the recommendations for the use of surplus reserves should be reconsidered in the context of the fiscal impact of an injunction on City finances.

Measure Z

As with the General Fund, Measure Z tax revenue projection was downgraded 10% as a contingency measure for the potential impact of the pandemic on revenue performance. Total revenues came in \$16.5 million higher than budgeted and 15.1% higher than the previous fiscal year.

Total expenditures recorded in FY 2020/21 were \$50.9 million. An additional \$36.2 million in unexpended funds allocated to various spending items has accumulated and is expected to be carried over. Expenditure savings of \$8.3 million are primarily attributable to personnel savings and \$6 million allocated to General Fund balancing measures which were not needed and have been returned to Measure Z unallocated reserves.

Measure Z unallocated reserves are projected to be \$38.8 million at fiscal year-end, inclusive of \$14.0 million in unallocated reserves from the previous fiscal year, \$16.5 million in higher-than-expected revenues, and \$8.3 million in expenditure savings.

Electric Fund

The FY 2020/21 adopted budget for the Electric Fund includes a programmed \$16.4 million operating deficit and draw on fund reserves. This is a financial strategy employed to draw reserves down to keep rate increases as low as possible. Unaudited fiscal year-end results present a budgetary operating loss of \$16.7M, including outstanding encumbrances and carryovers of \$11.8M. Reserve levels at fiscal year-end are expected to be within established policy levels; results are pending the completion of the financial audit.

### Water Fund

The adopted budget for the Water Fund included a projected \$7.1M operating gain to be used to fund capital projects in FY 2020/21, supplemented by a \$1.1M draw on reserves and \$22.4M of bond proceeds. Unaudited fiscal year-end results present a budgetary operating gain of \$9.1M after outstanding encumbrances and carryovers of \$5.0M. The Water Fund is expected to end the fiscal year with reserves within policy levels; results are pending the completion of the financial audit.

### Refuse Fund

In the adopted budget, the Refuse fund was originally projected to end FY 2020/21 in a deficit position of approximately \$1.4 million. The approval of the Solid Waste Rate Plan, which took effect on January 1, 2021, resulted in an increase to revenue forecasts; unfortunately, revenues resulting from the rate increase were not as high as anticipated and were offset by increases in recycling and disposal costs, resulting in an operating deficit of \$1.22M before encumbrances and carryovers and budgetary deficit of \$4.28M after encumbrances and carryovers. The Refuse Fund is expected to end the fiscal year with \$3.33M in fund reserves, following a FY 2020/21 net loss of \$4.28M.

### Sewer Fund

The FY 2020/21 adopted budget for the Sewer Fund Included a projected net operating gain of \$7.6M which would be used to help fund capital projects of \$14.0M. Unaudited fiscal year-end results show that the fund will perform on target, with a net operating gain of \$7.6M after outstanding encumbrances and carryovers of \$3.07M. The Sewer Fund is expected to end the fiscal year with \$71.4M in fund reserves, following a FY 2020/21 net gain of \$7.6M.

### Carryovers

A total of \$38,688,027 is recommended for Council approval, consisting of \$3,802,286 in restricted funding and \$34,885,741 in discretionary funding.

Restricted Carryovers represent appropriations of funding designated for a specific use per a third-party agreement, including donations, endowments, and grant matches.

Discretionary Carryovers include amounts appropriated for a specific purpose in previous periods, but unexpended due to timing or for other reasons. Discretionary carryovers may also include a reallocation of amounts from their original purpose to a new purpose, e.g., use of savings to fund the July 4th fireworks show, which was not funded in the adopted budget due to budget constraints.

Refer to Attachment 1, Appendix A for a detailed listing of carryover requests.

### **STRATEGIC PLAN ALIGNMENT:**

The reporting and presentation of financial results aligns with **Strategic Priority 5: High Performing Government** and **Goal 5.3:** Enhance communication and collaboration with community members to improve transparency, build public trust and encourage shared decision-making.

Financial reporting aligns with each of the Cross-Cutting Threads as follows:

1. **Community Trust** – Presentation of financial results provides a transparent view and communication of City finances in a forum that accommodates community engagement and the involvement of the Budget Engagement Commission.
2. **Equity** – The financial report is available to all members of the public via the City website, and the presentation of the financial report in a public forum accommodates community engagement from all members of the public.
3. **Fiscal Responsibility** – The financial report and proposed recommendations for the use of surplus reserves demonstrate the City’s commitment to responsible management of the City’s financial resources.
4. **Innovation** – The proposed recommendations for the use of surplus reserves demonstrate innovative ideas for the long-term fiscal health of the City.
5. **Sustainability & Resiliency** – The financial report includes proposed recommendations regarding the use of surplus reserves that invests in the City’s future and plans for the long-term fiscal health of the City.

### **FISCAL IMPACT:**

The General Fund ended FY 2020/21 in far better condition than projected despite the pandemic, allowing the City to maintain a 20% reserve level per the General Fund Reserve Policy and producing surplus reserves. As a result of the prior year’s surplus (\$15.64 million) and current year’s financial performance, General Fund surplus reserves are expected to be \$47.08 million after Council approval of carryover recommendations totaling \$2.3 million. For the moment, we should hold onto all surplus funds in the event the court does not uphold the November 2<sup>nd</sup> election. Should an injunction on the certification of Measure C results be upheld, the recommendations for the use of surplus reserves should be reconsidered in the context of the fiscal impact of an injunction on City finances. If the certification of Measure C is upheld, the recommended use of surplus reserves will enable the City to address current needs of the Electric GFT Settlement and self-insurance reserves, as well as bolster the long-term financial stability of the General Fund and preservation of City infrastructure.

Following Council approval of \$36.2 million in carryovers, the Measure Z Fund is expected to end the 2020/21 fiscal year with \$38.8 million in unallocated reserves.

The City’s major enterprise funds (Electric, Water, and Sewer) are expected to end the fiscal year with positive reserve balances within established policy requirements. The final results are pending the conclusion of the City’s financial audit.

There is no new fiscal impact for the approval of carryovers because the funding was approved by the City Council in June 2020 with the adoption of the FY 2020/21 budget.

# GENERAL FUND

With the onset of the COVID-19 pandemic in March of 2020, the City shifted course from its normal two-year budget cycle to an emergency budget for Fiscal Year (FY) 2020/21 given all the uncertainty. Many Southern California cities and local agencies implemented severe austerity measures in response to the pandemic, slashing revenue projections by 20% or more and permanently reducing staffing levels. However, Finance staff determined that the City of Riverside's revenue demographics did not warrant such drastic measures and instead recommended a 10% contingency revenue reduction from the original anticipated budget. As a result, the following balancing measures were adopted in the Fiscal Year 2021 emergency budget to close an estimated \$15 million (M) structural deficit and to offset the contingency revenue reduction:

- Vacancy savings target of \$15.7M, achieved through an immediate suspension of recruitment for existing vacant positions.
- Anticipated \$7M savings from the issuance of a Pension Obligation Bond in June 2020.
- Maintaining the Measure Z support level rather than adopting a programmed \$6.5M reduction predicated on a General Fund five-year plan that projected strong, continued revenue growth and significant one-time revenues such as the sale of City property to offset increasing operating costs.
- Allocating \$6M from the unexpended Measure Z Spending Contingency line item to the General Fund.
- Transferring \$6.2M of the Section 115 Trust's \$9.4M value (at the time of budget adoption) to the General Fund to help pay for the FY 2020/21 UAL payment.

CARES Act funding for public safety costs of \$5.8M also added to strong revenue performance.

## Revenue

While the fiscal impact of COVID-19 on General Fund revenues could not be reasonably estimated in time for budget adoption, staff recommended, and the City Council approved, that the City plan for a 10% revenue reduction in FY 2020/21 totaling \$28.1M. The estimated 10% reduction was based on the City's revenue demographics and revenue declines experienced immediately following previous economic recessions such as the 2008 Great Recession as well as limited data available during the pandemic.

Actual revenues came in \$26.6M higher than the adopted emergency budget and \$17.3M higher than pre-pandemic projections. Due to the excellent performance of revenues, **the \$6M use of Measure Z contingency funding and the \$6.2M transfer from the Section 115 Trust were not recorded**; that funding remained intact in those respective funds rather than being transferred to the General Fund.

Property Taxes, Sales and Use Tax, Utility Users Tax, and the General Fund Transfer accounted for 79.3% of all General Fund revenues in 2021. In the past 10 years, the total of these revenue sources as a percent of total revenues has ranged from a low of 75.7% in 2017 to a high of 80.9% in 2016.

## Expenditures

Prior to the onset of the pandemic, the proposed budget presented a structural deficit of approximately \$15M, due to years of revenues not keeping pace with rising costs. The introduction of the CalPERS UAL in 2016, which set a 20-year payment schedule for agencies to fully fund the Unfunded Accrued Liability, exacerbated the structural deficit. With the onset of the pandemic and resulting freeze of recruitment efforts, staff recommended – and City Council approved – the adoption of a \$15.7M vacancy savings target as a balancing measure for the General Fund. The vacancy targets per department were directly tied to a point in time vacant positions as of March 13, 2020 per the City's Human Resources (HR) system. This did not account for any outstanding job offers or other items pending outside of the HR system.

The FY 2020/21 expenditure budget is comprised of the adopted emergency budget of \$271.4M, \$5.0M of unexpended funds carried forward from the previous fiscal year, and numerous budget adjustments made during the normal course of business. The total adjusted budget for FY 2020/21 is \$275.4M.

Encumbrances of \$4.8M and project/grant carryovers of \$0.2M have been carried forward to FY 2021/22 as provided for in the Riverside Municipal Code. **Staff is requesting Council approval of an additional \$2.3M in carryovers**, included in Appendix A of this report. If the carryovers are approved, total expenditures savings for FY 2020/21 will be \$5.93M, or 2.2% of the total budget.

### Explanation of Budget Overages

- **Minor Capital & Grants:** This category includes 100% reimbursable Mutual Aid expense that is not budgeted due to its unpredictability. The Fire Department routinely assists as needed outside of City limits and is reimbursed for the related costs.
- **Charges To/From:** The amount charged to capital projects will vary depending upon project activity.
- **Convention Center Fund Subsidy:** The General Fund subsidizes the debt and net operating losses of the Convention Center, Riverside Visitor's Bureau, and Sports Commission. The subsidy budget was not adjusted due to the unpredictable effect of the pandemic on the venues.
- **Entertainment Fund Subsidy:** The General Fund subsidizes the debt and net operating losses of the Fox, Box, and Municipal Auditorium. The subsidy budget was not adjusted due to the unpredictable effect of the pandemic on the venues.
- **Transfers to Other Funds:** The budget overage is attributable to ongoing General Fund restructuring; in FY 2020/21, the fund balance attributable to the General Plan Surcharge and the Technology Fee, each of which are restricted in use of funding, were transferred to the Grants and Restricted Programs fund.

*Explanation of Budget Overages*

- **City Attorney:** An unfunded position included in the department's vacancy savings target was filled, causing a budget overage of \$190,000 in Personnel, offset by savings in other categories for a net budget overage of \$71,800.
- **Fire:** \$3.13M of the budget overage is attributable to Mutual Aid costs which are 100% reimbursable. Mutual Aid expense is not budgeted due to its unpredictability. Fire exceeded its Personnel budget by \$2.5M and did not achieve its vacancy savings target of \$1.9M. In Fire-Operations, the overtime budget of \$8.5M was overspent by \$1.7M representing 41% of base salary costs.
- **Non-Departmental:** The budget overage is directly attributable to the increased fund subsidies for the Convention Center and Entertainment Funds.

## 10-YEAR EXPENDITURE HISTORY

The following tables and charts show the 10-year history of General Fund expenditures. The effects of General Fund restructuring are most evident in the Minor Capital, Grants, Debt Service, and Fund subsidies categories. In 2018 Measure Z became effective, and some personnel costs were shifted from the General Fund to Measure Z. In 2021, the City issued a Pension Obligation Bond which shifted some CalPERS UAL costs to the Debt Service category and resulted in a net savings of \$7.2M in 2021.

The 2021 actuals in the following table will differ from the previous charts: the actuals below do not include carryovers and encumbrances totaling \$7.3M.

In the following chart, **the impact of General Fund restructuring and nonrecurring items have been removed to accommodate year-over-year comparability**: grants and capital projects are not included for any fiscal year; operating transfers are also excluded. Some General Fund restructuring can still be observed in the Debt Service category: through 2017, citywide activity related to outstanding Pension Obligation Bonds were passed through the General Fund for accumulation before sending the resources to the Debt Service Fund to make the annual debt payment. In 2018, the Special Districts Fund, Convention Center Fund, and Entertainment Fund were established to provide transparency to the General Fund subsidy of those activities.

## 10-YEAR GENERAL FUND EXPENDITURES (in millions)

Personnel costs have risen 23.3% (\$39.2M) in the past ten years, including a \$23.4M increase in salaries and \$5.9M increase in overtime costs. Due to the changes implemented by CalPERS regarding the unfunded liability in 2018, retirement costs increased \$19.9M over ten years before declining \$16.2M in 2021 due to a lump-sum paydown with the issuance of a Pension Obligation Bond (POB). The combined cost of the 2021 UAL payment and POB debt payment was \$7.2M less as compared to the original 2021 UAL payment and is expected to save the City an estimated \$175M over the life of the debt.

## 10-YEAR GENERAL FUND PERSONNEL COSTS

In 2016, the spike in salary costs is attributable to a number of factors, including:

- 27 biweekly pay periods in the 2016, as compared to the usual 26 pay periods per year.
- Renegotiation of Memorandums of Understanding (MOU), which included an estimated \$3.9M immediate impact related to the Police MOUs.

The Partnership Compensation Model was introduced in 2017, with the first salary increases under the model effective in FY 2017/18, with annual salary increases based on the Balanced Revenue Index (growth in key revenue sources) annually from January 2018 through January 2021.

FY 2020/21 remained flat compared to the prior year, largely attributable to:

- Suspension of recruitment and the adoption of a \$15.7M vacancy savings target.
- SEIU and Unpresented groups foregoing minimum scheduled salary increases.
- Nearly flat revenue growth presenting salary increases of 0.22% and 2% for the Police and Fire groups, respectively.

### Maintaining Reserves

The City's policy reserve level is 20%, established as a 15% Emergency Reserve and a 5% Contingency Reserve.

At each fiscal year end, fund reserves are calculated as a percentage of the following year's adopted budget. Since adopted appropriations typically increase from year to year, a 20% corresponding increase in reserves is required to maintain the reserve level (\$200,000 for each \$1M increase in appropriations). However, this **annual increase in the reserve requirement is not formally incorporated into the adopted budget** because the required increase in reserves for a future budget year is not known at the time of development. For example, when developing the 2021 budget, the 2022 budget appropriations – and therefore increase in required reserves – had not yet been developed. Therefore, **General Fund savings is typically needed at the end of each fiscal year to ensure that the reserve level is maintained.**

The required increase in General Fund reserves based on the adopted FY 2021/22 budget is \$3.12M.

### Fund Reserves

The beginning fund balance includes all amounts available to spend at the end of the previous fiscal year, including \$15.64M in surplus reserves, \$5.05M in encumbrances and carryovers, and \$54.28M in policy reserves. Current year activity, including new encumbrance and carryover balances, required accounting changes in other fund reserves, and recomputed policy reserves are subtracted or added to the beginning fund balance to arrive at the new balance of projected surplus reserves. This amount is available for allocation per Council direction.

#### RECOMMENDED USE OF SURPLUS RESERVES

At the end of FY 2019/20, the City had \$15.64M surplus reserves which Council directed to be set aside for future fiscal challenges, such as the legal challenge to the

Electric GFT and unpredictable impacts of COVID-19 on City finances. At the end of FY 2020/21, that amount increased to \$47.08M. Staff recommends Council approval for the use of surplus reserves as detailed in the following table. The recommendations are directly intended to enhance the financial stability of City finances and preserve City infrastructure.

### RECOMMENDED USE OF SURPLUS RESERVES

(in millions)

<b>Projected Surplus Reserves</b>	<b>\$ 47.08</b>
<b>Proposed Use of Surplus Reserves</b>	
Electric GFT Settlement	\$ 24.00
General Liability Fund Pre-Payment	2.50
Section 115 Trust	10.00
Capital Replacement Fund	10.58
<b>Total</b>	<b>\$ 47.08</b>
<b>Remaining Surplus Reserves</b>	<b>\$ -</b>

#### Justification for Use of Reserves

**Should the injunction on the certification of Measure C results be upheld, the following recommendations should be reconsidered in context of the fiscal impact of an injunction on City finances.**

- Electric GFT Settlement:** On November 2, 2021, Riverside voters approved the Measure C ballot measure which reaffirms the electric transfer to the General Fund as currently provided for in the Riverside Municipal Code. According to the Parada settlement, should voters authorize these current city budget and electric rate-setting practices by passing the Measure, the City will then, consistent with this mutually-agreed-upon settlement, also issue utility credits totaling \$24M over a five-year period to local utility ratepayers subsequent to formal certification of the election results.
- General Liability Fund Pre-Payment:** A series of large claims settlements in FY 2020/21 resulted in Self-Insurance Trust Funds falling below policy reserve levels. Staff recommends a pre-payment of General Fund rates totaling \$2.5M to immediately bolster fund reserves and reduce the need for significant rate increases to General Fund departments.

- **Capital Replacement Fund:** The City has endured significant fiscal challenges since the Great Recession that were addressed through a variety of means, the most significant of which has been a reallocation of capital funding to ongoing operations. A Capital Replacement Fund will provide for the accumulation of resources and associated expenditures for the maintenance and/or replacement of assets.

Capital asset renewal and replacement strategies  
“help governments prudently manage their  
substantial investments in capital improvements and  
give them a strategic tool to use in optimizing asset  
repair and replacement.”

Government Finance Officers Association (GFOA)

- **Section 115 Trust:** The Section 115 Trust was established to support the long-term fiscal management of the CalPERS UAL. The issuance of the Pension Obligation Bond (POB) significantly reduced annual payment requirements and provided some smoothing of the payment obligations. However, the combined annual payments for the CalPERS UAL and the POB still contain some payment spikes that will place pressure on City finances in the coming years. The Section 115 Trust should be leveraged to smooth the payment schedule and minimize the impact of the UAL and POB payment obligations on annual City finances. This will require a build-up of Section 115 Trust assets to a minimum of approximately \$40M by 2027. Staff recommends contributing \$10M of surplus reserves to the Section 115 Trust, which will bring Trust assets to a total balance of approximately \$20.7M.

The following chart illustrates a potential payment smoothing strategy, which currently requires a significant cash infusion of approximately \$12M to the Section 115 Trust during the 2022-2024 budget cycle. Staff will continue to refine the long-term payment strategy during the development of the 2022-2024 Biennial Budget and work with its actuary to update the financial impact to the City from recent developments regarding changes to the CalPERS discount rate and recent investment portfolio gains for the fiscal year ended June 30, 2021.

The proposed payment schedule in the following chart will result in a fiscal impact of \$37.9M to the General Fund annually for a period of twelve years, from 2025 through 2036. Section 115 Trust assets would be leveraged beginning in 2027 and thereafter, to achieve the annual budget impact of \$37.9M.

## MEASURE Z FUNDS

The financial reporting of Measure Z focuses on a Spending Plan format, which is a different presentation method than the financial reporting of other funds. The spending plan methodology provides a transparent and accessible illustration of Measure Z activity without the “noise” of formal accounting requirements and debt-funded capital projects:

- Measure Z activity is tracked in two funds as required by accounting rules: the Measure Z operating fund and the Measure Z capital fund. The capital fund includes all major capital activity, while the operating fund includes all other activity. Fund resources are transferred from the operating fund to the capital fund as needed to fund approved capital projects. These interfund transfers have a net zero impact and are not reported in the Spending Plan.
- Some Measure Z capital items are funded by debt, including Library construction and Fire vehicle replacement. Measure Z resources are used to pay the annual debt obligations, and these debt payments are reported in the Spending Plan. The spending of debt proceeds for capital purposes do not represent a current use of Measure Z tax revenue so they are not reported in the Spending Plan.

The adopted FY 2020/21 emergency budget included several actions to support the General Fund and preserve Measure Z resources in response to the unknown potential impacts of the COVID-19 pandemic on City finances:

- Maintaining the Measure Z support level rather than adopting a programmed \$6.5M reduction predicated on a General Fund five-year plan that projected strong, continued revenue growth and significant one-time revenues such as the sale of City property to offset increasing operating costs.
- Allocating \$6M from the unexpended Measure Z Spending Contingency line item to the General Fund.
- Deferring the Police Headquarters to 2023.
- Deferring the Museum Renovation to 2023.
- Eliminating the Downtown Parking Garage spending item.

### Revenue

As with the General Fund, the Measure Z tax revenue projection was downgraded 10% as a contingency measure for the potential impact of the pandemic on revenue performance. The original projection of \$62.9M in total revenues was reduced to \$56.2M. Total revenues came in at \$72.7M, which is \$16.5M higher than budgeted. Tax revenue came in at \$72.0M, a 15.4% increase over FY 2019/20 tax revenue, making up for nearly flat revenue growth in the previous fiscal year. This increase was driven by unprecedented federal stimulus dollars, pent up demand from consumers that were confined to their homes for the better part of a year and general inflation due to the increased demand exacerbating supply chain constraints.

The following table reports the revenue history for Measure Z since inception.

### MEASURE Z REVENUES SINCE INCEPTION

(in millions)	2017	2018	2019	2020	2021

<b>TUT Growth</b> over Prior Year	100%	345.7%	10.8%	0.1%	15.4%

## Expenditures

Measure Z expenditures are inconsistent due to the number of long-term initiatives and projects financed by Measure Z resources. This results in an accumulation of resources and carryover of funding in spending items of those types. In total, encumbrances and carryovers included in the Spending Plan total \$36.2M, with \$14.0M in discretionary (non-capital) carryovers requiring Council approval. An additional \$1.13M carryover of capital lease proceeds will also require Council approval; because this represents the expenditure of debt proceeds, this amount is accounted for separately from the Spending Plan as previously described.

There are three items of particular note in FY 2020/21:

- \$6M from the unexpended Measure Z Spending Contingency line item (Spending Item #4) was allocated to the General Fund as a balancing measure. Due to exceptional revenue performance in the General Fund, this allocation was not needed, and the funding will be returned to Measure Z unallocated fund balance.
- The Library project (Spending Item #23) was funded through a combination of Measure Z cash (a \$3.3M direct allocation for Library Archives) and debt proceeds. The use of the cash allocation reported in the Spending Plan in previous years was overstated; a portion of the reported amounts were funded by debt proceeds and therefore should be excluded from the Spending Plan. (Only debt obligations and cash-funded spending is reportable in the spending plan, as previously described.) The correction resulted in a credit amount being reported for the Library in the Spending Plan for FY 2020/21.
- The Homeless Temporary Housing item (Spending Item #41) was an allocation of funding pending grant reimbursement. All grant proceeds have been received, and the amount reported as a use of Measure Z funding in FY 2019/20 has been offset by a corresponding credit amount in FY 2020/21.

For detailed expenditure reporting, refer to the Measure Z Spending Plan in Appendix B of this report.

## Unallocated Fund Reserves

Actual Measure Z revenues and expenditures produced a net gain of \$21.8M. Encumbrances and recommended carryovers totaling \$36.2M are subtracted to arrive at the projected unallocated fund reserves (unaudited). The FY 2021/22 adopted Spending Plan includes a \$0.8M increase to unallocated reserves, with no expectation of drawing on the FY 2020/21 ending unallocated reserve balance of \$38.8M. Therefore, this full amount is available for allocation to new spending items.

# ELECTRIC FUND

The FY 2020/21 adopted budget for the Electric Fund includes a programmed \$16.4 million operating deficit and draw on fund reserves. This is a financial strategy employed to draw reserves down to keep rate increases as low as possible. Unaudited fiscal year end results present a budgetary operating loss of \$16.7M including outstanding encumbrances and carryovers of \$11.8M.

The Total Budget in the following chart includes the carryover of the previous fiscal year's unexpended funds and adjustments to the revenue and expenditure budgets made during the normal course of business. Actual expenditures include \$11.8M of outstanding encumbrances and carryovers to reflect budgetary savings.

## Revenue

Total revenues at fiscal year-end are 4% (\$15.94M) less than revenue projections in the adopted budget. Due to the unprecedented Local Emergency due to COVID-19, the City Council delayed the implementation of the third year of the Electric Rate Plan originally effective January 1, 2021 until July 1, 2021. The estimated reduction in electric revenues due to the delay is approximately \$4.4M. Retail sales are 3% (\$9.91M) under projections, with a shift from commercial sales to residential sales likely due to business closures during the pandemic and residential customers being at home more than usual because of the pandemic. Residential revenues came in 9.9% higher than projected, while commercial sales came in 10.7% lower than projected.

## Expenditures

The FY 2020/21 total expenditure budget for the Electric Fund is comprised of the adopted budget of \$411.57M; \$13.19M of unexpended funds carried forward from the previous fiscal year; and numerous budget adjustments made during the normal course of business. The total adjusted budget for FY 2020/21 is \$422.18M. The following chart shows budgetary savings of \$26.15M after \$11.82M of encumbrances and carryovers.

Actual operating expenditures at fiscal year-end are \$384.20M before encumbrances and carryovers of \$11.83M. Encumbrances of \$4.53M and grant carryovers of \$0.03M have been carried forward to FY 2021/22 as provided for in the Riverside Municipal Code. **Staff is requesting Council approval of an additional \$7.26M in operating carryovers**, detailed in Appendix A of this report. If the carryovers are approved, the operating budget savings for FY 2020/21 will be \$26.15M, or 6.2% of the total budget.

Capital expenditures totaling \$271.59M were recorded during the fiscal year; this amount includes \$22.80M of encumbrances and \$209.65M of unexpended capital project funds that have been carried forward to FY 2021/22 as provided for in the Riverside Municipal Code.

## Fund Reserves

Reserve levels at fiscal year-end are expected to be within established policy levels; results are pending the completion of the financial audit.

## WATER FUND

The adopted budget for the Water Fund included a projected \$7.1M operating gain to be used to fund capital projects in FY 2020/21, supplemented by a \$1.1M draw on reserves and \$22.4M of bond proceeds. Unaudited fiscal year end results present a budgetary operating gain of \$9.1M after outstanding encumbrances and carryovers of \$5.0M.

The Total Budget in the following chart includes the carryover of the previous fiscal year's unearned grant revenue, unexpended funds, and adjustments to the revenue and expenditure budgets made during the normal course of business. Actual expenditures include \$5.0M of outstanding encumbrances and carryovers to reflect budgetary savings.

## Revenue

Total revenues at fiscal year-end are 2% (\$1.69M) higher than revenue projections in the adopted budget. Retail sales are 2.9% (\$2.0M) higher than projections; residential revenues came in 4.1% higher than projected, while commercial sales came in 0.9% lower than projected.

*\*Includes \$1.73M in encumbrances and \$2.49M grant carryovers recorded as allowed by the Riverside Municipal Code; and \$0.78M in other carryovers recommended for Council approval (refer to Appendix A).*

Actual operating expenditures at fiscal year-end are \$71.29M before encumbrances and carryovers of \$5.0M. Encumbrances of \$1.73M and grant carryovers of \$2.49M have been carried forward to FY 2021/22 as provided for in the Riverside Municipal Code. **Staff is requesting Council approval of an additional \$0.78M in operating carryovers**, detailed in Appendix A of this report. If the carryovers are approved, operating budget savings for FY 2020/21 will be \$12.0M, or 13.6% of the total budget.

Capital expenditures totaling \$15.34M were recorded during the fiscal year; this amount includes \$7.53M of encumbrances and \$28.65M of unexpended capital project funds that have been carried forward to FY 2021/22 as provided for in the Riverside Municipal Code.

## Fund Reserves

The Water Fund is expected to end the fiscal year with reserves within policy levels; results are pending the completion of the financial audit.

## REFUSE FUND

In the adopted budget, the Refuse fund was originally projected to end FY 2020/21 in a deficit position of approximately \$1.4 million. The approval of the Solid Waste Rate Plan, which took effect on January 1, 2021, resulted in an increase to revenue forecasts; unfortunately, revenues resulting from the rate increase were not as high as anticipated and were offset by increases in recycling and disposal costs, resulting in an operating deficit of \$1.22M before encumbrances and carryovers and budgetary deficit of \$4.28M after encumbrances and carryovers.

The Total Budget in the following chart includes the carryover of the previous fiscal year's unexpended funds (\$0.67M) and adjustments to the revenue and expenditure budgets made during the normal course of business. Actual expenditures include \$3.06M of outstanding encumbrances and carryovers to reflect budgetary savings.

## Revenue

On September 15, 2020, the City Council approved the Solid Waste Rate Plan, which took effect on January 1, 2021. The projected impact of the rate increase for FY 2020/21 was \$2.3M; the revenue budget was adjusted accordingly, as shown in the City Service line item of the following

table, in the Total Budget column. Unfortunately, City Service revenues fell short of revised projections by \$1.34M. Stronger revenue performance in other line items reduced the revenue shortfall for the fiscal year to \$0.68M, or 2.5% less than the total budget.

## Expenditures

The FY 2020/21 total expenditure budget for the Refuse Fund is comprised of the adopted budget of \$26.64M; \$0.67M of unexpended funds carried forward from the previous fiscal year; and numerous budget adjustments made during the normal course of business. On April 13, 2021, the City Council approved a supplemental appropriation of \$2.5M to cover increased costs resulting from additional residential tonnage during the pandemic and changes in the recycling market. This supplemental appropriation, along with other budget adjustments made during the fiscal year resulted in a total adjusted budget for FY 2020/21 of \$29.99M. The following chart shows a budgetary overspend of \$1.12M after \$3.06M of encumbrances and carryovers.

**operating carryovers**, detailed in Appendix A of this report, including \$1.1M for the replacement of three natural gas refuse trucks. If the carryovers are approved, the operating budget overspend for FY 2020/21 will be \$1.12M, or 3.7% of the total budget.

---

*Changes in the recycling market have resulted in revenues no longer offsetting the cost of processing, transportation, and residential disposal and have resulted in the implementation of new organics processing and recycling rates. In previous discussions with the City Council, staff shared projections of \$1.5 million of increased costs associated with residential recycling. However, the recycling impacts have carried over to the commercial sector as well. As a result, the cost of processing recyclable materials was added to the City's waste processing agreement with the Agua Mansa Transfer Material Recovery Facility (MRF). Lastly, an increase in residential tonnage was an unanticipated effect of the pandemic and is likely attributed to more residents being quarantined in their homes. The addition of a new commercial organics processing and recycling rate implemented January 1, 2021, in addition to the residential component of the Solid Waste Rate Plan, should help offset future costs.*

## Fund Reserves

The Refuse Fund is expected to end the fiscal year with \$3.33M in fund reserves, following a FY 2020/21 net loss of \$4.28M.

## SEWER FUND

The FY 2020/21 adopted budget for the Sewer Fund included a projected net operating gain of \$7.6M which would be used to help fund capital projects of \$14.0M. Unaudited fiscal year end results show that the fund will perform on target, with a net operating gain of \$7.6M after outstanding encumbrances and carryovers of \$3.07M.

The Total Budget in the following chart includes the carryover of the previous fiscal year's unexpended funds and adjustments to the revenue and expenditure budgets made during the normal course of business. Actual expenditures include \$3.07M of outstanding encumbrances and carryovers to reflect budgetary savings.

## SEWER FUND BUDGET TO ACTUAL (in millions)

### Revenue

Total operating revenues at fiscal year-end are 6.2% (\$4.45M) lower than revenue projections in the adopted budget. Wastewater Service Contracts and Miscellaneous Revenue - Improvement Fees from Rubidoux, Edgemont, and Jurupa are \$3.14M less than projections due to decreased demand during the pandemic. A write-down of investments resulted in an additional \$0.9M revenue reduction.

### Fund Reserves

The Sewer Fund is expected to end the fiscal year with \$71.4M in fund reserves, following a FY 2020/21 net gain of \$7.6M.

# APPENDIX A – CARRYOVER RECOMMENDATIONS

**Restricted Carryovers** represent appropriations of funding designated for a specific use per a third-party agreement, including donations, endowments, and grant matches.

**Discretionary Carryovers** include amounts appropriated for a specific purpose in previous periods, but unexpended due to timing or for other reasons. Discretionary carryovers may also include a reallocation of amounts from their original purpose to a new purpose, e.g., use of savings to fund the July 4<sup>th</sup> fireworks show, which was not funded in the adopted budget due to budget constraints.

# City Council Memorandum

*City of Arts & Innovation*

.....

**TO: HONORABLE MAYOR AND CITY COUNCIL      DATE: DECEMBER 14, 2021**

**FROM: FINANCE DEPARTMENT      WARDS: ALL**

**SUBJECT: FISCAL YEAR 2020/21 FOURTH QUARTER CASH, INVESTMENTS, AND DEBT REPORT**

**ISSUE:**

That the City Council receive and provide input on the attached Fiscal Year 2020/21 Fourth Quarter Cash, Investments, and Debt Report.

**RECOMMENDATION:**

That the City Council:

1. Receive and provide input on the attached Fiscal Year 2020/21 Fourth Quarter Cash, Investments, and Debt Report.

**BACKGROUND:**

On June 15, 2021, the City Council received and provided input on the Fiscal Year 2020/21 Third Quarter Cash and Investments and Debt report.

**DISCUSSION:**

It is staff's intention to provide the Cash and Investments and Debt Quarterly report at the same City Council meeting as the Quarterly Financial Report for the General Fund and other City funds, in order to provide a comprehensive review of all City Finance activities and to obtain City Council input related to those activities.

**QUARTERLY CASH AND INVESTMENT REPORT**

Sound investment practices are an essential component of the City's strong fiscal management. The Finance Department is responsible for managing the City's investment portfolio, focusing first on the safety of investments and then on liquidity and an appropriate rate of return. The investment results and portfolio composition are summarized and reported to the City Council each quarter. As of June 30, 2021, the City's pooled investment portfolio's market value was \$885 million. The market value of investments held for the Section 115 Pension Trust Fund, fiscal agents (bond proceeds and reserve funds primarily), and other miscellaneous cash amounts to an additional \$123 million. The weighted average yield of the pooled investment portfolio is 0.82% as of June

30, 2021.

The authority to manage the City’s investment program is provided by the California Government Code Sections 53600-53610, which allows the City Council to delegate to the Treasurer/CFO for a one-year period the authority to invest or to reinvest all funds of the City. In accordance with the City Charter and under authority granted by the City Council, the Chief Financial Officer is designated the responsibilities of the Treasurer and is responsible for investing the unexpended cash in the City Treasury consistent with the City’s adopted investment policy.

The Cash and Investment Report, including a listing of cash balances by fund, is included in Attachment 1. These cash balances reflect each fund’s share of the City’s pooled investment portfolio. Also shown are interfund loan receivables, which are treated as available cash due to the Chief Financial Officer/Treasurer’s authorization to move loan receivables to other funds as needed.

All listed funds have a positive cash balance except for the following funds as of June 30, 2021:

1. Civic Entertainment – Cheech Marin Center (\$960,739), Community Development Block Grant (\$89,824), Housing Opportunities for Persons with AIDS (\$1,059,720), Capital Outlay Grants (\$283,079), and Transportation Uniform Mitigation Fees (\$3,090,603) have negative cash balances due to the timing of expenditures; however, the negative balances are fully offset by receivables.
2. Local Park Special Capital Improvements (\$233,675) development fees received will fully offset the negative balance, and the fund will return to positive in Fiscal Year 2021/22.
3. Unemployment Insurance Trust (\$91,361) due to an increase in unemployment claims related to the COVID-19 pandemic. This account is being monitored, and there are plans to bring this account into positive in Fiscal Year 2021/22.

**QUARTERLY DEBT REPORT**

The Finance Department is responsible for managing the City’s debt portfolio, which includes issuing new debt and monitoring opportunities to refinance existing debt. The Quarterly Debt Report (Attachment 2) summarizes the composition of the City’s debt portfolio, details the revenue sources utilized to pay the debt service associated with each outstanding debt, and provides detailed information regarding the total principal and interest payments made in the fourth quarter of Fiscal Year 2021 by debt classification and fund.

*Debt Summary Analysis*

The City’s outstanding principal varies quarterly as a result of debt service payments, bond calls, new debt issuances, and refunding and defeasance activity. At the end of the fourth quarter, the City’s outstanding principal balance decreased \$3,029,463 from the end of the third quarter of fiscal year 2021. This principal decrease is primarily due to debt service principal payments on the Ryan Bonaminio Park Loan, Measure A Certificates of Participation 2013A, Electric Fund Capital Leases, Fox Entertainment Plaza Loan, and the Convention Center Expansion Loan.

The chart below depicts the composition of the City’s debt portfolio at the end of the fourth quarter. The Enterprise funds are responsible for the majority of the City’s debt, and are primarily for capital project financing offset by the revenues generated by the newly financed facilities. The General Fund and Measure Z have the next largest percentage of debt, providing financing for projects

and equipment related to public safety, downtown revitalization, and public facility and infrastructure improvements. The debt service for the City’s Pension Obligation Bonds is allocated among many of the funds, distributing debt service in alignment with departmental staffing costs.

For purposes of this report, the Sewer, Water, Electric, Refuse, Special Transit, Civic Entertainment, Convention Center, and Parking funds are consolidated under the classification of Enterprise Funds. Measure Z and the General Fund are grouped together. Measure A, and the City’s Parks Special Capital fund are classified under Capital Projects Funds. While the Assessment Districts, Galleria Agreement, and Community Facilities Districts are part of the City debt portfolio, they aren’t classified as City obligations. They are offset by individual Improvement Districts which are separate legal entities from the City, formed to issue debt and levy assessments or special tax to finance improvements related to development in those districts.

The following bar chart provides the City’s debt service portfolio using the same classification methodology, depicting the aggregate principal and interest payments on all City debt instruments by fund. As noted in the following chart, the City has a stable debt service curve that results in steadily diminishing annual debt service payments and that minimizes any upward spikes in payments that could negatively impact the City’s ability to pay debt service.

*Debt Related Activities in Fourth Quarter*

Finance staff regularly monitor the market to identify opportunities to maximize debt service savings through refunding and to issue debt when rates are most advantageous. Within the fourth quarter, the Financing Team prepared financial reports related to annual debt expenses and long-term obligations. Staff reviewed proposals for a new Citywide debt collaboration system and selected DebtBook as the most compatible system. Staff also began the process of evaluating a Citywide banking vendor through a competitive RFP process. The land secured financing team began the process of forming a new Community Facilities District JCFA with Riverside Unified School District.

Other debt related activities conducted within the fourth quarter include:

- Legislative requirements for annual Business Improvement District, Landscape Maintenance and Streetlight Maintenance District, Special Tax and Assessment District, and General Obligation Bond levies.
- Continuing Disclosure Annual Reports for Enterprise, General Fund, and Successor to the Redevelopment Agency Debt.
- Conducted a Tax Equity and Fiscal Responsibility Act (TEFRA) public hearing for the purpose of approving financing for the Oasis Senior Affordable Housing project.

**STRATEGIC PLAN ALIGNMENT:**

This item contributes to **Strategic Priority No. 5 – High Performing Government** and specifically, **Goal No. 5.3 – Enhance communication and collaboration with community members, to improve transparency, build public trust, and encourage shared decision-making.**

This item aligns with EACH of the five Cross-Cutting Threads as follows:

1. **Community Trust** – The preparation and approval of the debt and investment quarterly report ensures transparency and demonstrates compliance with City Debt and Investment Policies.
2. **Equity** – The debt and investment portfolios detailed in this report are used to share and

offset the long-term cost of growth, development, and expansion among Riverside businesses and residents.

3. **Fiscal Responsibility** – The Quarterly Report demonstrates fiscal responsibility and accountability to show the current financial situation of the City and closely related agencies.
4. **Innovation** – Innovative stewardship of investments and municipal debt is an effective way to track, fund, and finance, repair and improvements while ensuring sufficient cash to meet obligations.
5. **Sustainability & Resiliency** – Quarterly accounting and reporting helps to ensure City funds are used in a sustainable way without compromising future needs.

**FISCAL IMPACT:**

There is no direct fiscal impact associated with this report.

<sup>1</sup> Excludes water stock acquisition rights, copier leases, development agreements, and amortization of premiums and discounts on outstanding debt, none of which are material.

<sup>2</sup> Debt service for these bonds is allocated based on the percentage of CalPERS plan employees budgeted in those Funds. Payments sent to trustee 8/1 annually, but are actually paid to bondholders in Dec & June

<sup>3</sup> Beginning outstanding principal balance on interfund loans may be less than prior year projected ending balance due to actual FY 2018 pooled interest rate adjustment at end of FY

<sup>4</sup> Debt service for this loan is primarily funded from a voter-approved increase in the transient occupancy tax rate from 11% to 13%.

<sup>5</sup> Under the terms of an existing development agreement, increased incremental sales tax resulting from the expansion of the Auto Center funds the debt service on these bonds.
